

PadelMind

SERVICES CATALOGUE · PADEL PARKS

Everything a padel park needs, from one team

Scoring on the wrist, club nights run over WhatsApp, the park's own booking site, live score boards on every court, and cameras that send each player their match and their numbers.

Prepared for Layla Hashemi and the PadelPark team · October 2026 · Jain Gymkhana, Mumbai, a PadelMind-recorded court

Padel players in Mumbai who build the tools their own clubs run on

Built on live clubs

Cameras on both courts at Jain Gymkhana since September 2026. Club nights at NSCI and Jain Gymkhana run on Tourney. Scorers at those nights use ScoreMaster.

One member across everything

A booking can carry a recording. A score tapped on a watch moves a club-night leaderboard. A coach's level seeds a ladder. One profile, one level, one set of results.

Available where you are

ScoreMaster, Tourney, SportsBook and the live board run anywhere today. The court cameras are installed and run by PadelMind, and are available outside India on request.

The web catalogue with every product in detail stays current at **padelmind.in**. This deck is the short version for the PadelPark team.

THE SUITE AT A GLANCE

Five products, one member profile, one WhatsApp number

LIVE · APP STORE

ScoreMaster

Free scorer for Apple Watch and iPhone. One tap per point, winner or error, and the match ranks its MVP.

LIVE · CLUB NIGHTS

Tourney

Americano and Mexicano nights, team auctions and a club ladder, run from one phone over WhatsApp.

EARLY ACCESS

SportsBook

The park's own booking site and front desk. Member rates, split payments, add-ons, no convenience fee.

LIVE · MUMBAI COURTS

Court video

Two cameras per court. Match video, highlights and a performance report to every player on WhatsApp.

LIVE · TV PAGE

Live boards

The score from the scorer's taps on any screen with a browser. LED boards on the court glass in build.

Plus for coaches

The PML coach programme: two or three coaches rate each player on one form, and PadelMind combines them into a level from 2.0 to 7.0 that seeds nights, ladders and rankings.

A scorer that lives on the wrist

- The court

Four quadrants, one tap per point, winner or error for the player concerned. Serve order, sides and tiebreaks are handled by the rules engine.
- MVP

Winners minus errors per player, every point, all match. The share card ranks all four. This is the number players argue about afterwards.
- Formats

Padel first, with tennis and badminton scoring. Golden point, points-to-a-total and sets. Doubles and singles.
- Hands free

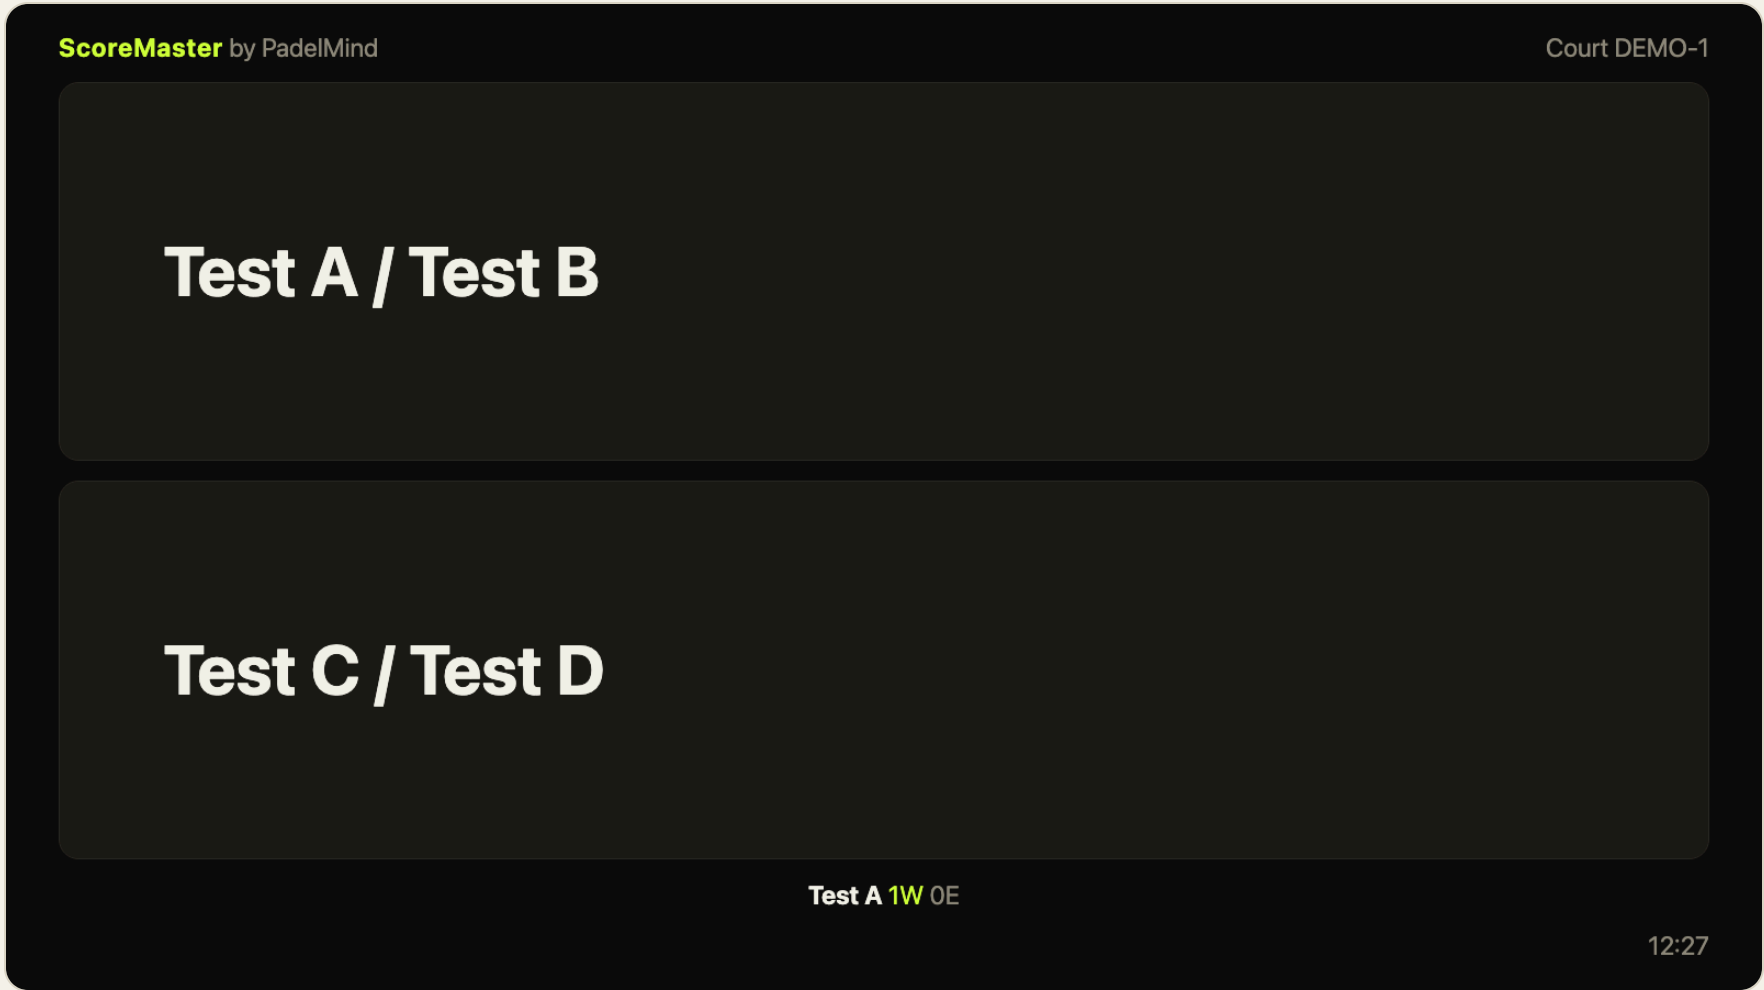

Apple Watch with match clock, heart rate and calories. Voice calls the score; haptics confirm the tap. The iPhone is a full scorer for a ball boy.
- Into Tourney

A court links to a Tourney event, so a score tapped on the watch lands on the organiser’s leaderboard as it is played.
- In testing

Android phone and Wear OS versions are built and with testers on Google Play.

Court-board link and the scoring screen, Android build

The score on the court, on the clubhouse TV, with no typing

The court board page, as a TV or monitor shows it (demo court)

- Any screen** A smart TV, a monitor or a tablet opens the court's board page in a browser. Nothing to install at the park.
- One scan** The scorer scans the court's QR sticker in ScoreMaster. Every tap updates the board; a game is confirmed on screen for five seconds.
- Kept** Every state change is stored for thirty days, so a recorded game can carry its score later.
- In build** LED boards on the court fence at the net, fed over Wi-Fi from the same taps. Going on both courts at Jain Gymkhana first.

The organiser’s phone runs the whole night. Players never install anything.

Formats

Americano with the full rotation drawn up front. Mexicano drawn each round from the live leaderboard. Sit-outs credited at the player’s own average.

Before

Interest form, rules on WhatsApp, waitlist, invite, pay. Only the invited player’s personal link shows the price and the pay step.

Next step, always

The host page shows the funnel and how many places are left. At each stage Tourney says what to do next and sends the matching WhatsApp message.

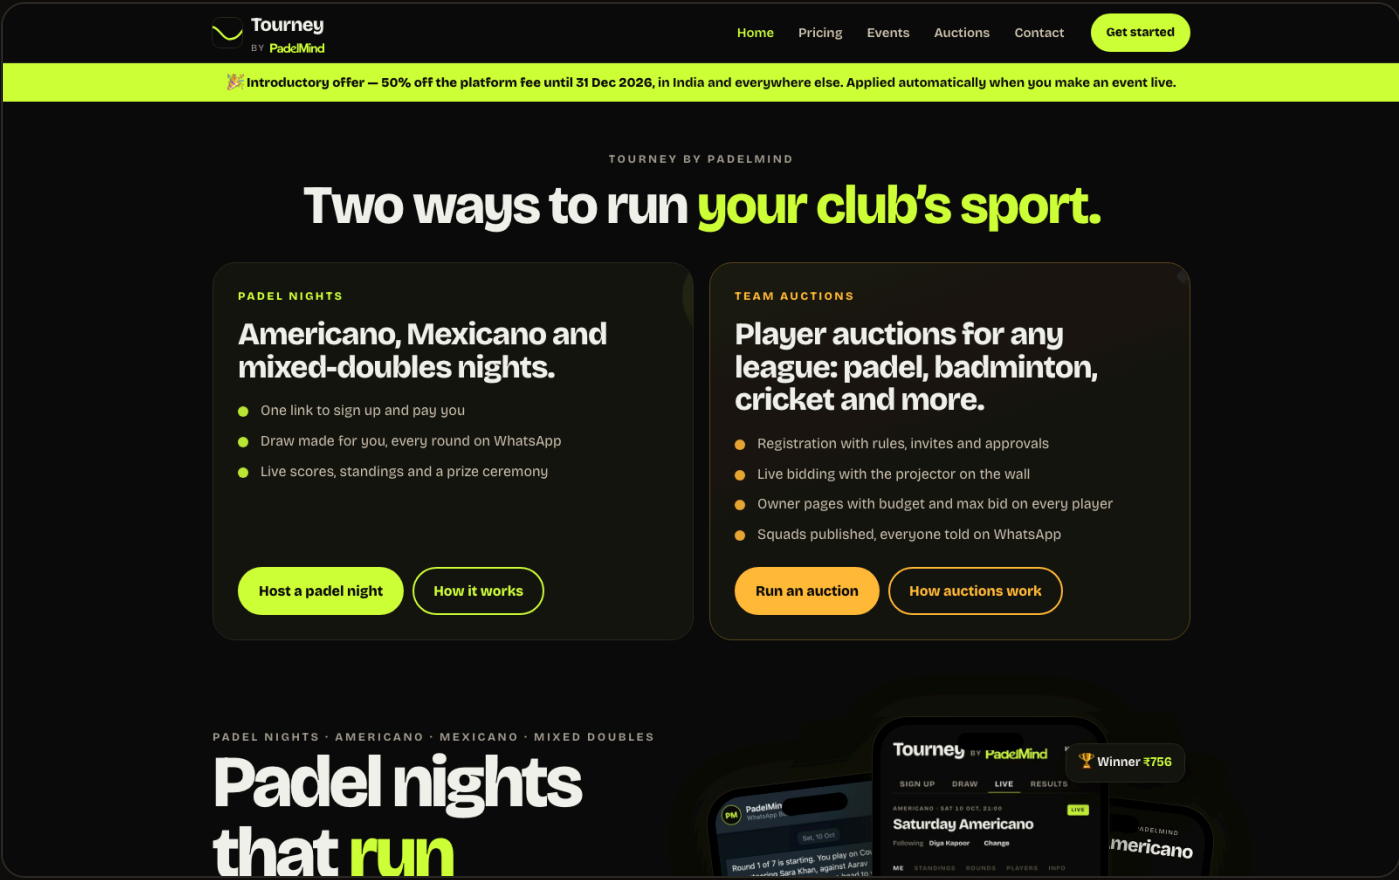

On the night

Score every court from one phone, or let ScoreMaster watches feed it. Live leaderboard on the clubhouse TV. Corrections logged.

After

Standings, prize ceremony from the pricing you set, results to each player on WhatsApp, and a step-by-step replay of the night for the group chat.

Honest by design: no fake “spots left” counters; the sign-up count can be hidden until the night is half full

tourney.padelmind.in, as it is today

ALSO FROM THE TOURNEY ENGINE

Team auctions for leagues, and a ladder that picks the club team

TeamAuctions **LIVE**

The auction will start shortly

A live player auction for any league. Registration with rules and approvals, a hall screen for the projector, the host's room, owner pages with budget and max bid, and captains bidding from their phones. Squads published and everyone told on WhatsApp.

auction.padelmind.in · a real 2026 league auction replays lot by lot at the demo link

Club ladder **BUILT · IN REVIEW**

1. The committee invites pairs and seeds them with peer input
2. Monthly round robins on shelves of four, off-peak hours only
3. A result counts only when scored live on ScoreMaster: no typed scores
4. Ratings freeze at the end of the quarter; a poll picks the team that represents the club

A format for any club. Coach-run ladders at a venue work the same way, with the coaches as the committee that rates players.

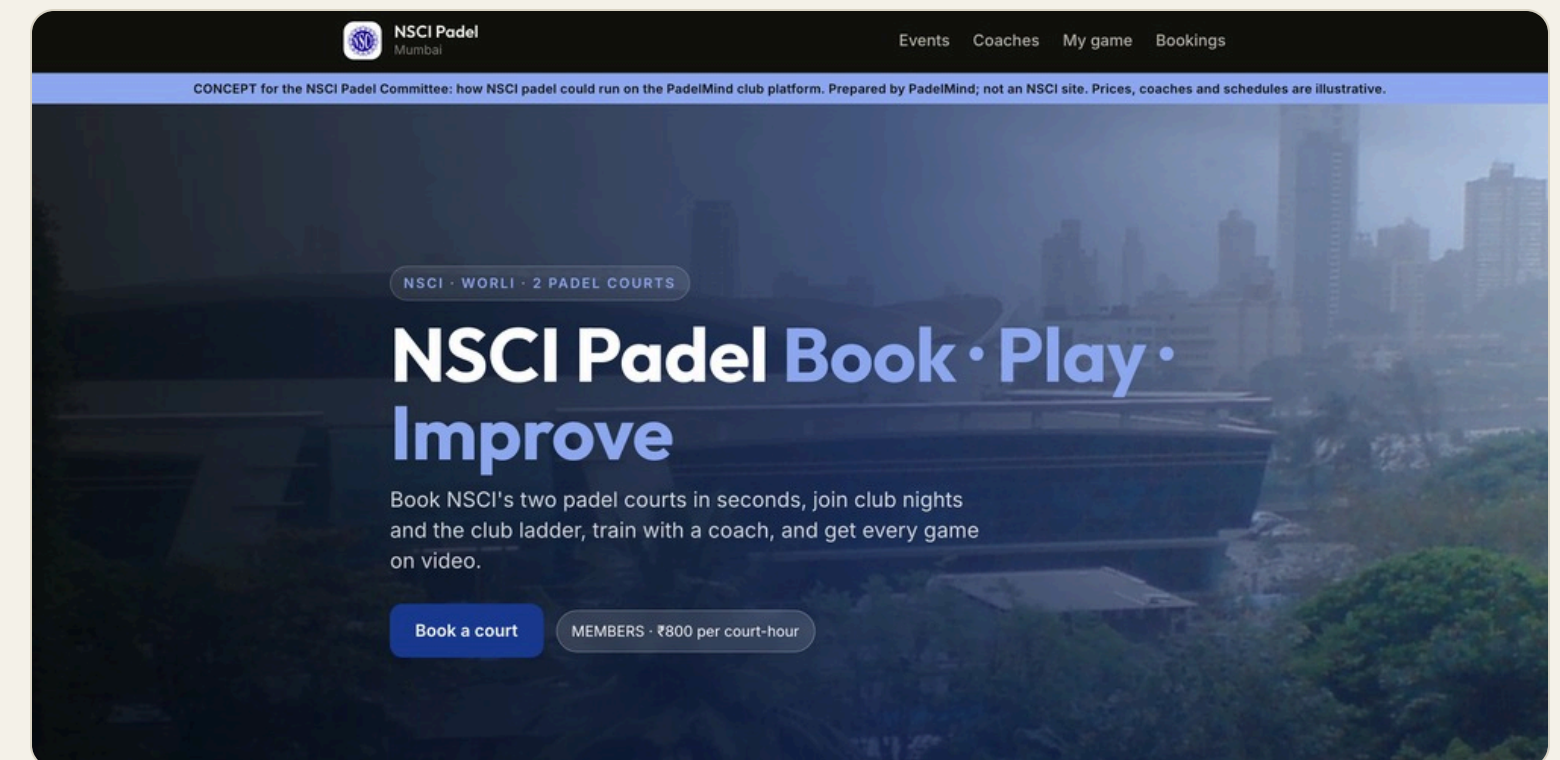

Also built and in review: Cuatro, two squads of four over three mirrored rounds on two courts

Your courts, your brand, your member list, run from one desk

- Member rates, pass plans and a wallet, with the court fee split between four
- Add-ons booked with the court: racket hire, balls, a ball machine, AI recording
- Club nights, clinics, camps and the ladder on the same site, with sign-up and payment
- Front-desk day sheet and reports; coach profiles and private sessions
- No convenience fee for members, and no commission on court revenue
- An open booking API, so other apps can book your inventory on your terms

Hosted, maintained and supported by PadelMind. The park keeps its brand on the front and its data behind it.

sportsbook.padelmind.in · live for pilot clubs; iOS and Android apps for players to follow

A concept club site built on SportsBook for a Mumbai club; banner and prices illustrative

Two cameras per court. Every player gets their match and their numbers.

Match video

The whole game from the baseline camera, on a private link to watch, keep and share.

Match report

Work rate, distance covered, top speed, time at the net, mid-court and back, with a heatmap.

Live watch link

Family, friends or a coach watch the court live, with sound, from anywhere.

Highlights

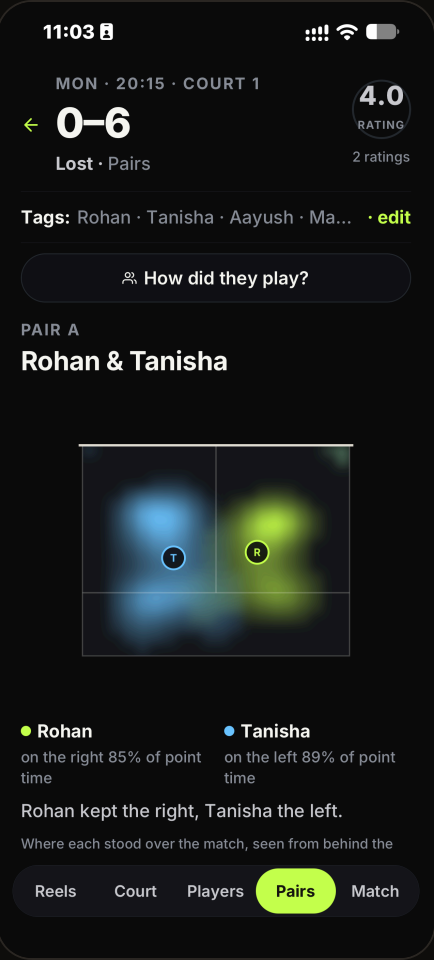

The best rallies cut out automatically, ready to send to friends or post.

Partnership card

How a pair covers the middle, keeps its spacing and moves together.

How it runs

Scan the court-side QR, choose what you want, play as normal. Nothing to wear or carry.

The app, current build

COURT VIDEO · GESTURE REELS

Win a point, raise your arms, keep it

1. Play a point worth keeping
2. Raise both arms near the net for two seconds
3. That point arrives as its own reel on WhatsApp

No button, no app open on court. Someone walking past the net does not trigger it. Proven on members' games at Jain Gymkhana since October 2026.

A member's point, Court 1, Jain Gymkhana, 8 October 2026: the reel the gesture made

Levels that coaches agree on, and coaches the park can trust

READY

Level validation

Two or three coaches rate each player on the same 20-area form, without conferring. PadelMind combines them into one level from 2.0 to 7.0, with a scorecard of what to work on next.

READY

Accurate rankings

Validated levels match players in club nights, seed the ladder and rank members fairly, instead of the level each player picked for themselves.

IN THE WORKS

Coach certificate

A PadelMind certificate for coaches who assess to the standard: trained on the form, then checked against the panel and the pose data. A new park's coaches could be an early cohort.

Also in the works: every shot read before, during and after the hit. Coaches confirm the shot and rate each phase, and their labels teach the model to coach.

Where it runs today

Jain Gymkhana, Mumbai

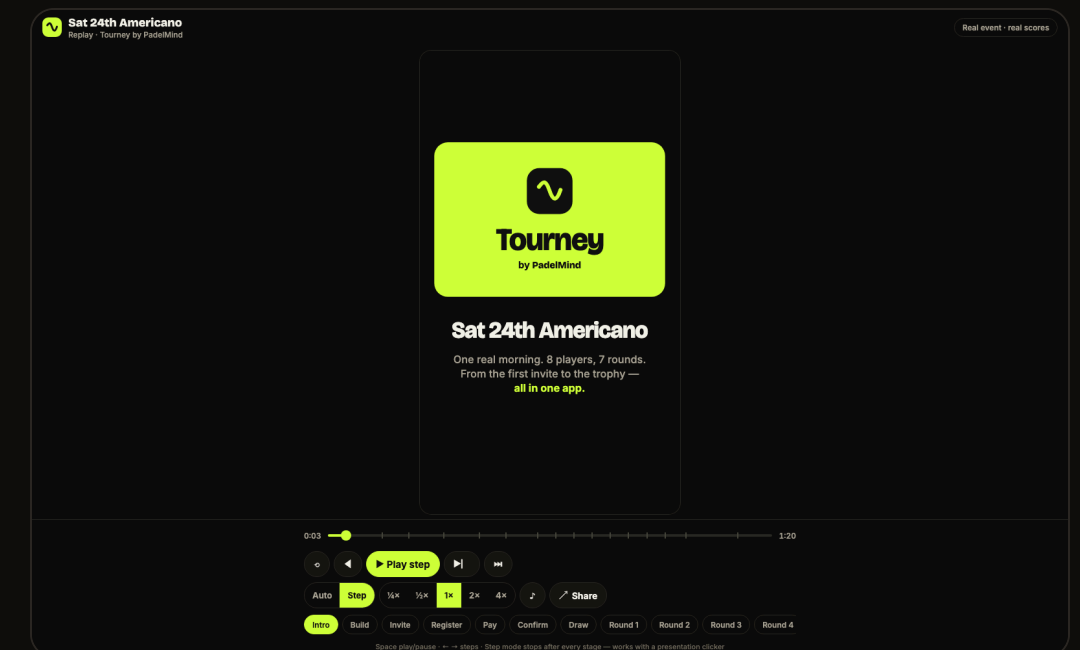

TWO COURTS · CAMERAS ON BOTH

- Every booked session recorded from both ends since September 2026
- Players order at the court-side QR; video, reels and reports on WhatsApp
- Gesture reels on members' games since 8 October
- Green LED score boards agreed for both courts, fed from ScoreMaster
- Saturday Americano of 24 October run on Tourney; the next one is 1 November

NSCI, Worli, Mumbai

TWO COURTS · MEMBERS ON TOURNEY

- Members' Americano nights run on Tourney since 3 October: sign-ups, draw, live scores, prize pool
- The club's badminton league auction of 9 October replays lot by lot through TeamAuctions
- Proposal with the padel committee: two-court camera system, the club's own booking site, a quarter-long club ladder

See a real night, step by step: the Americano of 24 October replays from the first invite to the trophy

What shipped this month, and what is next

When	Product	Update
22 Oct	ScoreMaster	Live on the App Store. Android 1.1 and Wear OS builds with testers on Google Play.
16 to 21 Oct	Live boards	Court board page live; the app links a court by QR; every score change kept for thirty days.
11 Oct	TeamAuctions	Live on tourney.padelmind.in, with online bidding from captains’ phones and a replay of a real auction.
18 to 22 Oct	Tourney	Co-organisers, published Terms, a marketplace of club events. Cuatro and the club ladder built, in review.
18 Oct	SportsBook	Live at sportsbook.padelmind.in for pilot clubs; a concept club site built for NSCI.
8 to 22 Oct	Court video	Gesture reels on members’ games; the ScoreMaster score as an overlay on the recording built, in testing.

Coming, no dates promised: ball and shot tracking in the reports, the score overlay on match video, the ladder and Cuatro in production, native Tourney apps, SportsBook player apps.

How we would start with PadelPark

1

Software from day one

ScoreMaster is free for your coaches and players. Pick a night and we set it up with you in Tourney on a 14-day trial. Live boards need only a screen with a browser.

2

Your own booking site

Courts, hours and member rates set up on SportsBook under the park's brand; the member list loaded; a short session for the front desk.

3

Cameras, on request

A site review on a video call, then a proposal for two cameras per court, installed and run by PadelMind. We will show a Mumbai court live first.

Each stage stands on its own. Commercial terms are discussed on a call, not on a slide.

See it working, then let's talk
